MLF INGREDIENTS SDN BHD

FOOD AND ORGANIC WASTE RECYCLING
THROUGH INNOVATIVE TECHNOLOGIES

MANUFACTURED AT AN
FDA
REGISTERED FACILITY

WE PROVIDE BEST FOOD RECYCLE BUSINESSES

We transform factory food by-products/off-specs food ingredients to animal feed ingredients

ABOUT US!

Established in 1968, Lam Tak Pte Ltd has been in the animal feed industry for more than 50 years. We recycle all kind of off-spec food ingredients, dairy ingredients and food factory's by-product for animal feed use.

With manufacturing factories in both Singapore and Malaysia, we handle off-spec cargo from around the world, from smaller quantity to a larger batch <500mt per deal. We gather food waste from factories and converts it into nutritional feed materials, supply to major feed millers and farms across Asia.

In 2020, we won The Most Sustainability Awards of Emerging Enterprise, presented by The Business Times & OCBC bank. We will continue to serve as a link between the food and feed industries while seeking new suppliers and customers.
