FOR IMMEDIATE RELEASE

CLEANENVIRO SUMMIT SINGAPORE 2022 TO ADDRESS SUSTAINABILITY AND URBAN ENVIRONMENTAL CHALLENGES

Urban environmental leaders will convene to discuss climate resilience, the circular economy, and public hygiene issues

Singapore, 1 March 2022 – The CleanEnviro Summit Singapore (CESG) 2022 will return from 17 to 21 April this year for its fifth edition at the Sands Expo and Convention Centre, Marina Bay Sands with the theme, “Towards Sustainable and Climate-Resilient Cities”.

2 CESG is a global networking platform for thought leaders, regulators, policy makers, and industry captains to discuss pressing and pertinent issues such as promoting circular economy frameworks, adopting climate resilient policies and safeguarding public hygiene standards. The five focus areas are: Waste as Resource, Enhanced Hygiene Standards, Effective Pest Management, Sustainable Energy, and Pollution Control.

Bringing leaders together for in-depth discussions, and to share best practices and solutions to address environmental concerns

3 A hallmark feature at every CESG is the **Environmental & Water Leaders Forum**, jointly organised with Singapore International Water Week (SIWW). This year’s forum will feature industry leaders and senior government officials such as Ms Michele Blom, Netherlands’ Vice-Minister of Infrastructure and Water Management and others from around Europe and Asia.

4 The forum will tackle issues contributing to climate change such as urbanisation and population growth, finite resources and the need for clean water, sanitation and public hygiene. Leaders at the forum will share their views on how nations and organisations can capitalise on the sustainability challenges and transform them into opportunities.

5 Environmental leaders will connect and forge new partnerships at the **Clean Environment Leaders Summit (CELS)** to advance their sustainability agenda. Speakers at the plenary sessions of CELS include Ms Grace Fu, Minister for Sustainability and the Environment, Singapore; Mr Rajeev Menon, Board Member of the US-ASEAN Business Council and President, Marriott International Inc. for Asia Pacific excluding Greater China (APEC); and Dr Amy Khor, Senior Minister of State for Sustainability and the Environment, Singapore.

6 Another highlight of CESG is the **Clean Environment Convention (CEC)**, where industry professionals and technical experts will get to network and exchange ideas about the latest solutions and best practices to meet environmental needs and challenges. The Convention will comprise four tracks: Sustainable Energy and Energy Efficiency; Resource

Sustainability; Advancing Public Hygiene (Environmental Cleaning; Disinfection & Pest Management in an Urban Environment and Innovations & Technology in Climate Change Defence (held in collaboration with the Asia Climate Forum).

7 For the exhibition component, the **Environment Expo** will feature innovative solutions and latest technologies on cleaning, pest management, waste and resource management, pollution control, and sustainable energy. Innovative solutions to build resilience and address extreme weather & climate change will also be on showcase in the Asia Climate Forum Exhibit. A list of exhibitors can be found in the **Annex**.

8 Lastly, CESG 2022 will feature a **Youth Environment Leaders Immersion Programme** for the first time. The programme will provide opportunities for a group of youth leaders to network and exchange ideas with their peers, as well as learn from accomplished environment leaders and industry captains in the environmental sustainability space.

9 “We look forward to the return of the CleanEnviro Summit Singapore (CESG) after a three-year hiatus. This is an important platform for industry leaders, regulators and policy makers to reconnect and renew commitments to address sustainability and climate-related issues that are challenging all of us. Showcasing at CESG are novel technologies and solutions that can help turn waste into resources, improve public hygiene standards and monitor pollution. We hope that CESG can be the landmark platform for the region’s key players to explore innovative solutions and forge new partnerships towards a more sustainable and climate-resilient world,” said Mr Dalsen Chung, Managing Director for CESG.

10 Registration for CESG is now open and interested persons may register at <https://www.cleanenvirosummit.gov.sg/registration> before 14 March 2022 to enjoy an early bird discount. For more information, visit: <https://www.cleanenvirosummit.gov.sg/>.

About CleanEnviro Summit Singapore 2022

The fifth edition of the biennial CleanEnviro Summit Singapore (CESG) will take place from 17 to 21 April 2022. It serves as a global networking platform for thought leaders, senior government officials, regulators, policy makers, and industry captains.

Organised by the National Environment Agency, the event is built on the theme, 'Towards Sustainable and Climate-Resilient Cities', with pressing and pertinent issues such as promoting circular economy frameworks, adopting climate resilient policies and safeguarding public health standards taking centre stage. The discussions will deep-dive into five key areas: Waste as Resource, Enhanced Hygiene Standards, Effective Pest Management, Sustainable Energy, and Pollution Control.

The Clean Environment Leaders Summit and the Clean Environment Convention feature in-depth discussions and will provide participants with the opportunity to share global best practices. The inaugural Youth Environment Leaders Immersion Programme provides opportunities for a select group of youth leaders to explore the expo, network, exchange ideas and expertise with their peers, and learn from established leaders in the environmental sphere. The sessions are intended to enable discussions of practical and scalable solutions to environmental concerns, especially those brought on by climate change. Exhibitors at the Environment Expo will also showcase the latest in environmental technologies and solutions.

**CESG 2022 Exhibitor List
(As of 28 February 2022)**

Company Name*	Services
FOUNDING SPONSORS	
China Everbright International Limited	Sustainable Energy, Waste Management
DOWA ECO-SYSTEM Co., Ltd	Sustainable Energy, Waste Management
JFE Engineering Corporation	Waste Management, Sustainable Energy
LionsBot International	Cleaning
SoftBank Robotics	Cleaning
GOLD SPONSORS	
ALBA W&H Smart City Pte Ltd	Waste Management
Veolia Group	Waste Management, Sustainable Energy
CORPORATE SPONSORS	
Keppel Seghers	Waste Management, Sustainable Energy
EXHIBITORS	
800 Super Waste Management Pte Ltd	Waste Management
AE Monitoring – Earth Networks Inc.	Asia Climate Forum
All Weather Inc	Asia Climate Forum
Anaergia Singapore Pte LTD	Waste Management
