

CleanEnviro Summit Singapore 2020

Climate change, depletion of natural resources and rapid urbanisation are fueling the demand for cleaner and more sustainable solutions. Besides initiating public and private partnerships to serve the international markets, Singapore plays a pivotal role as a talent hub for CleanTech test beds and solutions.

Organised by the National Environment Agency, Singapore since 2012, the biennial CleanEnviro Summit Singapore (CESG) serves as a global networking platform for thought leaders, senior government officials, regulators and policy makers, and industry captains.

The fifth edition of the event is built on the theme, **'Towards Sustainable and Climate-Resilient Cities'**, and will deep-dive into five key areas: Waste Management, Cleaning, Pest Management, Sustainable Energy and Pollution Control.

CONFERENCE HIGHLIGHTS

Clean Environment Leaders Summit

By Invitation Only

A dedicated high-level platform designed to provide opportunities for **environment leaders** to network and forge new partnerships to advance sustainability. The plenaries will examine policies, innovations, ideas and international collaborations from a strategic standpoint, to address the environmental needs and challenges of growing cities.

- Plenary 1** Accelerating Climate Action in Asia
- Plenary 2** Towards a Zero-Waste ASEAN

Clean Environment Convention

The technical segment of CESG2020, where **industry professionals** and **technical experts** have the opportunity to exchange ideas and connect over the latest solutions and best practices for environmental needs and challenges. The sessions will cover themes that encompass the essential technical domains that will equip environmental stewards with practical tools and insights for their respective areas of work.

- Track 1** Sustainable Energy
- Track 2** Towards Zero Waste
- Track 3** Climate Change Defence
- Track 4** Advancing Public Hygiene

Young Environment Leaders Forum

The inaugural Young Environment Leaders Forum is a new and unique platform in the environmental landscape for **young leaders** to network and exchange ideas and expertise with peers as well as established leaders, tapping into exciting opportunities for growth and innovation.
