# Our Story

## CleanEnviro Summit Singapore 2018

Climate change, the depletion of natural resources and rapid urbanisation are fuelling the demand for cleaner and more sustainable solutions. In Asia, Singapore plays a pivotal role as a talent hub for CleanTech test beds and solutions.

Themed **'Transforming Tomorrow's Cities with Clean Environment Solutions'**, the fourth biennial **CleanEnviro Summit Singapore (CESS)**, organised by the National Environment Agency, Singapore, will be held from 8 to 12 July 2018, in conjunction with the World Cities Summit and the Singapore International Water Week. This is a global platform for industry and government leaders to identify, develop and share practical, replicable and scalable solutions to address environmental challenges in the context of the waste-water-energy nexus in tomorrow's cities.

CESS 2018 builds on its international reach to explore opportunities and challenges, and co-create solutions for the following five industry sectors:

**Waste  
Management**

**Cleaning**

**Pest  
Management**

**Sustainable  
Energy**

**Pollution  
Control**

# Programme

## Highlights

### Clean Environment Leaders Summit

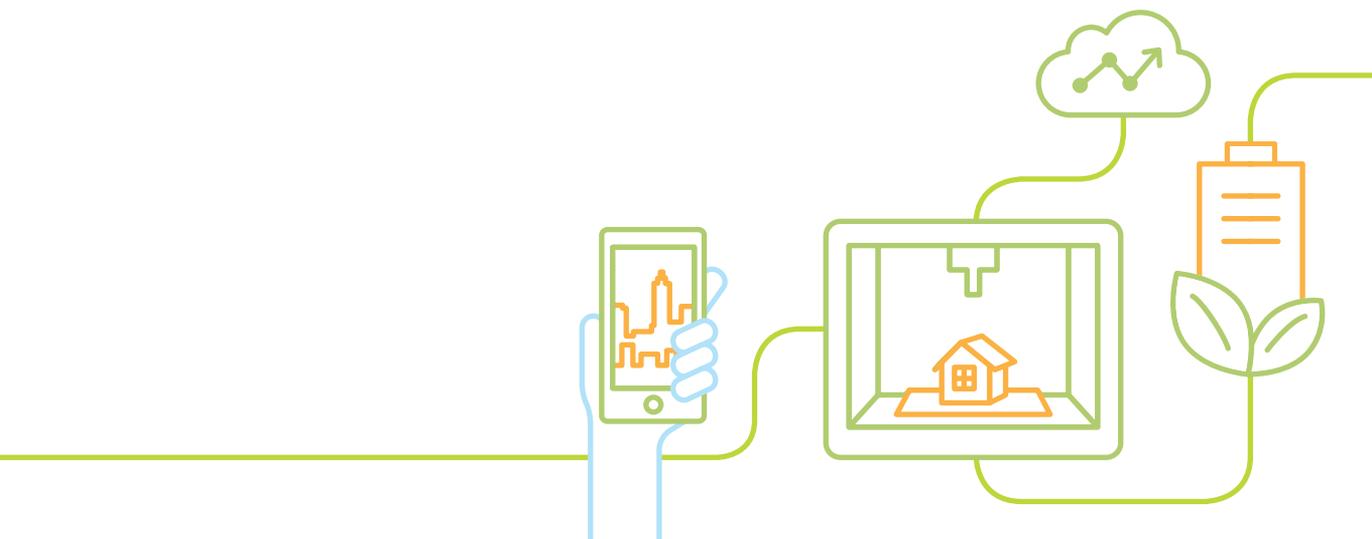

The **Clean Environment Leaders Summit (CELS)** is a dedicated programme with three sessions designed to provide opportunities for environment leaders to connect and forge new partnerships to advance sustainability, address challenges, and enhance their knowledge of the industry. The sessions will also enable delegates to share their expertise, participate in panel discussions, and exchange ideas with leaders in an interactive setting. The first edition of the CELS will take a deep dive into themes such as smart regulations, green growth models, and future technologies and solutions.

### Leaders-Experts Forum

The **Leaders-Experts Forum (LEF)** is a plenary session that serves as a bridging event between the leadership-focused Clean Environment Leaders Summit and the technically-driven Clean Environment Convention. The LEF brings together prominent speakers and subject-matter experts who will offer insights into the latest trends in environmental innovation, and provides the opportunity for both environment leaders and technical experts to share and discuss best practices, strategies and technological solutions.

### Clean Environment Convention

The **Clean Environment Convention (CEC)** is the technical segment of CESS 2018, where industry leaders, academics and regulators network, exchange ideas, and discuss current trends and cutting edge technologies. The CEC comprises four sessions covering the themes of automation, optimisation, behavioural sciences, and smart grids and sensors – all of which are essential technical tools for environmental stewards of tomorrow. During each session, speakers will share innovative breakthroughs, latest findings, and unique insights relating to the industry sectors of Waste Management, Cleaning, Pest Management, Sustainable Energy, and Pollution Control.

# Why Participate

## MEET ENVIRONMENTAL PROFESSIONALS AND EXPERTS

including ministers, mayors, government officials, industry leaders and heads of international organisations

## LEARN ABOUT THE LATEST ENVIRONMENTAL TRENDS

and solutions from distinguished international speakers

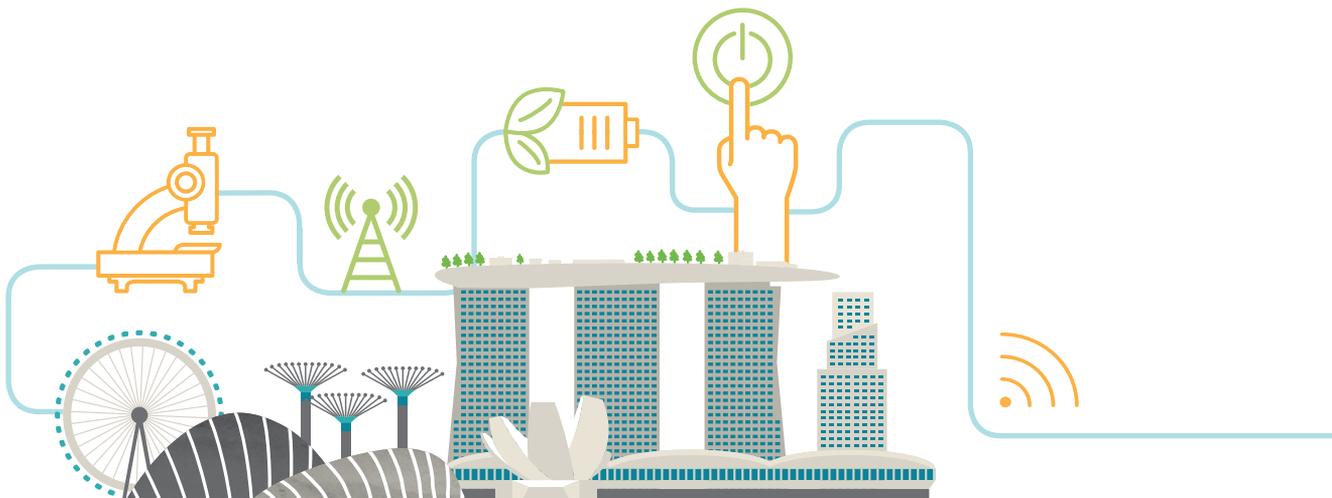

## LEVERAGE INFORMATION AND SHARE YOUR KNOWLEDGE

and best practices with key industry experts in environmental and waste management sectors

## UNCOVER BUSINESS OPPORTUNITIES

and forge new partnerships with key city officials and industry players

# Who Should Attend

## Government

- Local, State and Federal Policy Regulators
- Ministers, Governors and Mayors
- Municipal and District Officials

## Investors

- Accelerators, Incubators and other Seed Funders
- Business Partners
- Venture Capitalists

## Academia and Researchers

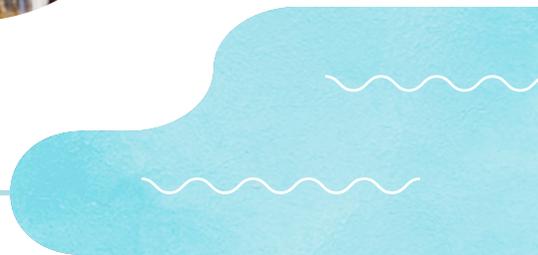

- Think-tanks
- Scientists
- Research Fellows
- Journal Publishers

## Solutions and Service Providers

- Technology Suppliers
- Innovators
- Environmental Services Providers

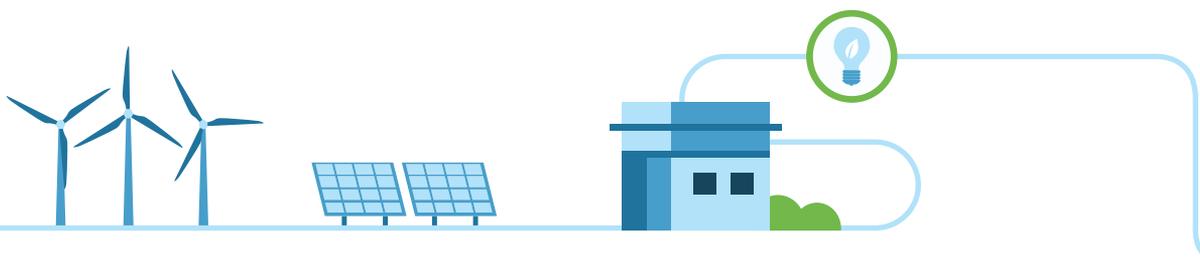

## Facility Developers and Owners

- Infrastructure Builders
- Facility Management Agents

## STRATEGIC PARTNERS

The biennial CleanEnviro Summit Singapore (CESS) is a global networking platform for thought leaders, senior government officials and policy makers, regulators and industry captains. Held from 8 to 12 July 2018, the fourth edition of CESS is built on the theme 'Transforming Tomorrow's Cities with Clean Environment Solutions', which will deep-dive into five streams: Waste Management, Cleaning, Pest Management, Sustainable Energy and Pollution Control. In-depth discussions and the sharing of best practices will be facilitated through business forums and high level plenaries, such as the Clean Environment Leaders Summit, Leaders-Experts Forum, Clean Environment Convention, and Clean Environment Regulators Roundtable. The City Solutions Singapore Expo and Innovation Pitch will showcase the latest innovations in environmental technology and solutions.

#### IN CONJUNCTION WITH

The biennial World Cities Summit is an exclusive platform for government leaders and industry experts to address liveable and sustainable city challenges, share integrated urban solutions, and forge new partnerships. Jointly organised by Singapore's Centre for Liveable Cities and Urban Redevelopment Authority, key highlights of the Summit include the Lee Kuan Yew World City Prize, the annual World Cities Summit Mayors Forum, and the World Cities Summit Young Leaders Symposium.

For more information, visit [www.worldcityssummit.com.sg](http://www.worldcityssummit.com.sg)

The Singapore International Water Week (SIWW) is the global platform to share and co-create innovative water solutions. The biennial event gathers stakeholders from the global water industry to share best practices, showcase the latest technologies and tap business opportunities. SIWW is part of the strategic programme of the Singapore Government to grow the water industry and develop water technologies.
