Dalson Chung
Managing Director
CleanEnviro Summit Singapore 2021

Dear Friends and Partners,

Happy New Year!

We have experienced one of the most unusual years of our time in 2020. The COVID-19 pandemic has spurred the world's businesses, economies and communities to confront an urgency to revisit, reimagine and reshape to thrive in a new normal.

During this period, we observed increased global interest in climate change issues sparking impactful conversations on environment sustainability. Well-placed to build on this traction, the upcoming fifth edition of CleanEnviro Summit Singapore (CESG) will bring together thought leaders, senior government officials, regulators and policy makers, and industry captains to exchange practical and scalable solutions to address the environmental challenges of tomorrow's cities, such as de-carbonisation and zero-waste governance.

At CESG 2021, our inaugural Young Environment Leaders Forum will also be a platform for young environment leaders to connect with established industry leaders in the environment and sustainability sectors today. We hope that the Forum will inspire these dynamic individuals to explore innovative solutions aimed at addressing current sustainability challenges and beyond.

While we are forging ahead to bring the industry together for conversations on sustainability, please be assured that your safety and health is of our utmost priority. The CESG organising committee is working to implement appropriate measures for our participants' safety, guided by health authorities' responses to the evolving global COVID-19 pandemic. We will share these measures in due course.

We wish you good health and a fruitful 2021 ahead.

Call to Reduce Food Waste Disposal and Enhance Recycling

Calling for Solutions
to Reduce
Food Waste Disposal
from Commercial Premises
and Enhance Recycling

The National Environment Agency and Enterprise Singapore have jointly launched the **Call to Reduce Food Waste Disposal from Commercial Premises and Enhance Recycling**, as part of the National Innovation Challenges.

Together with industry partners (CapitaLand Limited, Changi Airport Group and Lendlease), we seek your innovative solutions to:

- Improve source segregation of food waste by stakeholders such as tenants, cleaning staff and/or patrons
- Accurately track and measure the amount of segregated food waste generated by tenants within premises
- Develop a robust on-site food waste treatment system that optimises use of limited space and generates useful output for commercial premises

Submit your proposal via the [SOIC portal](#) by **19 February 2021, 12PM (GMT+8)** for the opportunity to receive up to S\$1 million for solution development projects and up to 50% of co-funding support for potential solution adopters.
