ACTION FOR A SUSTAINABLE AND CLEAN ENVIRONMENT

19 – 21 June 2024
Sands Expo & Convention Centre
Marina Bay Sands, Singapore

SUSTAINABILITY SUMMIT

Get ready to network with industry leaders and gain valuable insights from esteemed speakers of the environmental industry at the **Sustainability Summit** on 19 June 2024.

Themed “Towards a Net Zero City”, its Plenaries will delve into policies, innovations, and international collaborations from a strategic standpoint, to co-create solutions that address the low carbon transition and environmental needs, as well as challenges in our rapidly growing cities.

Adopting net zero strategies not only fosters a more sustainable environment, but it also helps your business grow by saving money, attracting investors, and gaining a competitive edge in sustainability-conscious markets. Secure your place today and ensure your business stays ahead in the race towards a greener future.

Stay tuned for more information on the **Sustainability and Clean Environment Convention** in our next eDM.

Summit Plenary 1: Panel on Net Zero

2:30PM to 3:15PM

Sands Expo & Convention Centre - L5 Grand Ballroom

Achieving net zero emissions has become more pressing due to global and economic uncertainties. This panel will delve into innovative solutions for sustainability while exploring the anticipated impact post-COP28 on these solutions and their real-world implementation.

Summit Plenary 2: Panel on Low Carbon Transition

4:05PM to 4:50PM

Sands Expo & Convention Centre - L5 Grand Ballroom

In the current landscape, it is increasingly critical for businesses to embrace a low-carbon transition. Through the implementation of this approach, businesses will not only pave the way for a more sustainable future but also ensure their resilience and competitiveness in the market.

This panel will explore the multi-faceted approach to decarbonisation for businesses, along with a focus on leveraging blended / transition finance, carbon credits to pivot towards more sustainable,

low-carbon business models.

PROGRAMMES @ ENVIRONMENT EXPO

LaunchPad

New this edition! The LaunchPad features a dedicated pitching stage and booths from startups and Institutes of Higher Learning. It is a dynamic hub for visionaries and disruptors to showcase their groundbreaking ideas and concepts in environmental sustainability-

Attendees will get the opportunity to engage in knowledge sharing through forums and gain hands-on experience on the latest prototypes and innovations.

LaunchPad Stage

Visuals are for illustration purposes and may be subjected to change at Organiser's discretion.

The LaunchPad Stage, located within the LaunchPad area, offers a 140-person open seating space for pitching sessions on technology innovations, focusing on Climate Action, Resource Circularity, and Public Hygiene. Additionally, [Enterprise Singapore](#) and the [Urban Solutions & Sustainability Innovation & Enterprise Office](#) will be hosting their own events on 20th June in the Expo Hall. These events will showcase Singapore's innovative solutions, foster knowledge about our local waste treatment

capabilities, catalyse partnership opportunities for a circular economy, and highlight the relevance of triple-helix partnerships in our ecosystem through the discussion of successful use cases.
