Tork EasyCube

Data-driven cleaning solutions for all types of businesses

Transform
your business
with data-driven
cleaning

Facility managers worldwide face similar problems

- How do you know if your cleaning resources are optimized?
- Are your teams cleaning in the areas that really need attention?
- How do you handle complaints?
- How do you prove to your stakeholders that you are doing a good job?
- How do you attract, retain and motivate your employees?

In facility management, staying in control of operations is hard. Improving operations under constant cost pressure can be even harder.

The cleaning industry has gotten used to high pressure, low margins and frequent customer churn – and large staff turnover and absenteeism. What would it mean to you and your business if things could be different?

1 Sensors in buildings measure visitor traffic and refill levels in real-time

2 Provide and real-time cleaning

To solve your problems we reimagined facility management

What if you could save 20% of your cleaning hours and respond to complaints before they happen? Now you can.

Welcome to the world of data-driven cleaning – where cleaning teams and facility managers get real-time information about cleaning needs. This allows your team to do exactly what's needed, when and where it's needed. The result is a revolutionary boost to efficiency, quality, user satisfaction and staff engagement. Sounds good?

Tork EasyCube is the world's leading data-driven cleaning offer. It empowers cleaning teams with new and smarter ways of working and makes the benefits of data-driven cleaning accessible to all types of facility management and cleaning businesses – irrespective of size and needs.

Already, Tork EasyCube has a large and growing customer base – from Dubai to northern Sweden. Let's take a look at how Tork EasyCube can empower you.

3 Cleaning statistics and KPIs to manage, follow up and optimize resources for increased efficiency

A whole new logic for cleaning

With Tork EasyCube, your team can shift to need-based cleaning. No more under- or over-cleaning or unnecessary checks. Real-time information enables cleaners to do what's needed, when and where it's needed. Once you've tried this way of working, you'll never want to go back.

Cleaning needed

Refill possible

No action needed

Refill necessary

Welcome to a new and smarter way of working with data-driven cleaning

Managers get more results with less effort

With instant access to data on visitor numbers and refill levels, staying in control is easy:

- Manage, document and follow up cleaning performance and quality through a digital system with objective KPIs
- Optimize your cleaning plans thanks to data on cleaning needs
- Boost quality and eliminate complaints by ensuring that facilities are stocked and cleaned when needed
- Maintained property value by having better control of cleaning activities
- Faster and easier hand-over between shifts and training for new employees

Cleaners work smarter not harder

Data-driven cleaning empowers you to be proactive and solve problems before they even arise:

- Ensure high quality cleaning by keeping track of tasks and ticking them off when you're done
- Eliminate unnecessary work by doing what's needed, when and where
- Less stress when you know that you're on top of things
- Stock your trolley based on real-time info on exactly what's needed
- Work feels more meaningful when you know that every task matters

The business value

Tork EasyCube has a large customer base around the world. Below are the result from multiple customers working with data-driven cleaning. With Tork EasyCube in place you can be assured that your cleaning resources are optimized. You will be able to prove that you are doing a good job, fulfilling the contract and meeting or exceeding your KPIs. Staff engagement will increase as a result of less stress and more meaningful tasks. And it reduces the training time needed for new cleaners.

24%
Fewer cleaning rounds¹

99% of time on averages⁴

¹ The weighted average of results achieved by two Tork EasyCube customers, measured during 158 days, before and after the implementation of Tork EasyCube. ² Based on the documented results achieved by three Tork EasyCube customers, measured before and after the implementation of Tork EasyCube. ³ Measurement of visitor satisfaction in two Tork EasyCube washrooms and two traditionally maintained and equipped washrooms at ISSA/Interclean exhibition, May 2016. ⁴ Based on Tork EasyCube data from 10 customers measured over 789 days.

Help your team reach maximum efficiency

Did you know that 89% of all dispenser checks are unnecessary with traditional cleaning? Knowing exactly what's needed means no time is wasted. And more time allow cleaning teams to focus on quality and go the extra mile when cleaning, and managers can feel safe that nothing is neglected.

“With the help of Tork EasyCube, we can now make cleaning rounds more efficient and have gone from 90 cleaning rounds to an average of 68.”

Ralf Möller
Foreman at Sodexo
Facility management partner of Unilever

“My staff loves it and we are using our time more efficiently because we no longer need to check each dispenser physically. It is an awesome benefit not to have to do that anymore.”

Jake Allgeier
Park Services Manager
Kentucky Kingdom and Hurricane Bay

Set a new standard for customer satisfaction

Data-driven cleaning enables higher quality. Eliminate complaints and forget about untidy areas or empty dispensers. By ensuring that facilities are cleaned and stocked when needed you can ensure high quality cleaning throughout all areas. Switch to data-driven cleaning with Tork EasyCube for radically increased customer satisfaction.

“I think Tork EasyCube makes an important contribution to helping customers feel good throughout every part of their visit here.”

Lukas von Känel
Manager
Welle 7

“From a situation where cleaning got remarks from visitors, we now score all time high on customer satisfaction index.”

Dragica Novacic
Park Support Manager
Gröna Lund

Boost your team's engagement

If your staff feels good and is motivated, it's a win-win for them as well as your operations. Tork EasyCube will have positive effects for your people. Work feels meaningful when they know that every task matters, and being more in control means less stress, which can lead to less sick leave. Your people are your most important resource – they will thank you for implementing Tork EasyCube.

“It takes the stress away from cleaning since we're on top of every problem.”

Jenny van Iersel
Receptionist
Apenheul Primate Park

“With the software in place it's hard to imagine work without it. It makes the job better, less stressful and more meaningful.”

Data-driven cleaning with Tork EasyCube

There are three different levels of data-driven cleaning (see right). This allows you to choose the right data-driven cleaning solution for your specific operation – depending on size, number of sites and complexity.

Our entry offer is entirely software-based, while our next two service levels use a combination of software and sensors in buildings, dispensers and bins to allow for need-based cleaning and refilling.

A modern cleaning management software solution that helps you stay on top

Switch to need-based cleaning and empower your staff to clean where and when it is needed.

Transform your entire operations by proactively responding to refill and cleaning need through real-time data.
